DEMLA

a series of seminars delivered
by those in the know for
those who need to know

DEMLA - Open seminars

We are delighted to present a series of top quality seminars designed to meet the professional needs and interests of the legal & medical professions.

We have recruited leading experts in their field, who will give our delegates a unique insight into issues that may have significant impact on their professional career. The relaxed and interactive format of these events will also present an opportunity for delegates to discuss and debate opinions with professional associates working in the South West

Monday 8th July 2013 - 'Post Francis. - What happens if I blow the whistle now?' with David Johnstone from Patients First UK

Patients First UK says 'Our purpose is to reduce death and harm in the NHS by campaigning for the UK Government to create policies and laws that ensure the NHS becomes open and accountable and we will actively support all those who raise concerns about patient safety.' The seminar will investigate shortfalls in current legislation regarding whistleblowers, changes in the legal landscape around support and protection for whistle-blowers and the Francis Report recommendations. www.patientsfirst.org.uk
